Our Commitment

We pride ourselves on our commitment to quality, ensuring your project is completed on time and to the highest possible workmanship. Our repeat business speaks for itself; we work with our customers again and again and have long term relationships with many of the larger building services providers. We are a silver member of Constructionline and our Acclaim accreditation demonstrates our ongoing commitment to Health & Safety.

Our Team

We are proud to have committed employees and regular sub-contractors many of whom have worked with us for 13 years plus. All employees hold the relevant CSCS card, NVQ/City & Guilds qualifications and are PASMA and IPAF trained. A number of our employees are supervisors with SSSTS training.

Our History

M-Tech Engineering Solutions Ltd was established in 2007 by Michael Green. Michael has worked in the commercial mechanical heating and plumbing industry for over 35 years. We have successfully completed projects for schools, hospitals, training centres, office buildings, commercial and residential buildings and care homes.
